We correct the Public Notice that changed the ex parte status of the instant application. In that Public Notice, Report No. SAT-01462, we stated that, "The Satellite Division designates the above-captioned proceeding as "permit-but-disclose" for purposes of the Commission's rules governing ex parte communications, effective October 11, 2019." Instead, that sentence should read, "The Satellite Division designates the above-captioned proceeding as "permit-but-disclose" for purposes of the Commission's rules governing ex parte communications, effective April 23, 2020." Additionally, this application was inadvertently granted in error but has now been restored to pending status.
